

Rev 2/2/17

CONTRACT APPROVAL OF TYPE IV GEOTEXTILE

From SOP:

(28) GEOTEXTILES:

*D. Type IV - The Project Inspector shall furnish a completed DT-0044 (T-2) form with certification stating that the material meets AASHTO M 288 Stabilization, Tables 1 and 4, Class I with an elongation less than 50%. A sample of the geotextile material measuring 100 inches in length by the width of the roll shall be submitted to Headquarters Materials and Tests Laboratory. The sample shall contain at minimum one NTPEP manufacturing mark located on the roll edge of the product. Do not use until you receive a test report.**

**A signed and approved DT-0044 (T-2) from Headquarters Materials and Tests will be your report.*

Below is example of sample record:

The screenshot displays the 'Maintain Sample Information' form with the following data:
